BLOCKCHAIN:NEW DYNAMICS FOR CHANGING WORLD

The ground breaking innovation of our generation is the BLOCKCHAIN TECHNOLOGY entailing many mechanisms and algorithms.

In this segment this complex technology is decoded in simpler terms that makes the layman understand it's nuances.

Comprehending an automated process is not a herculean task but interpreting a process which is being automated afterwards is a tougher task.

This technology is the backbone of crypto currency framework.

Passing the transaction through a standard set of rules leads to it's authenticity and validity.

First step in the algorithm is transaction initiation,

When the BLOCKCHAIN TECHNOLOGY needs to add a unique block it will first have to identify the originating transaction.

Second is transaction verification,
This is done by the network of computers also known as nodes.

After this steps, the transaction is added to the block with a unique cryptographic HASH which is added with certain capacity.

HASH-Reflects unique transactional data,
Just like every human being has a unique approach of thinking, every hash in the chain denotes unique data which is permanent and cannot be deleted or surpassed.

This makes this concept more safe and trustworthy as the original data is stored.

A string of process will flow at this stage which is called MINING which will check the consensus between the nodes and then the block in the chain is visible to the users.

The major advantage in this technology is it cannot be hacked easily or it is impossible to hack it.

Only a bug in the code of this technology is a lacuna which makes the chain hacked, but it never happens due to advanced security protocols.

This can be used in general election voting to many varied applications which enhances it's reliability.

Consummating every task is a sign of effectiveness in any being but the tedious task needs efficiency as well.

This feature of the BLOCKCHAIN TECHNOLOGY is a USP of the framework process.

This can be even used at an individual level for storing and establishing concrete credentials.

Small Story...

It was monday, But the strange thing was that despite being a corporate employee, He was a bit excited.

The reason of his excitement was the announcement of Party for all employees, taking place on the upcoming Sunday.

All the employees were instructed to submit the list of their favorite Party Songs, The best from them would be played at party so that everyone gets a chance to dance on their favorite.

This guy submitted a list of 25 songs, Wishing that some of them would get selected for sure.

Cut to Sunday, Our guy was ready for party. Reaching the venue, his excitement was reflecting on his face.

Then he got the list of songs & There was a Sheer Disappointment on his face, Not even a Single Song from his list was there!

He decided to Boycott the party & Just sit at side.

Then he saw a guy dancing like there is no tomorrow. Out of curiosity, He went to that guy and asked him that how many songs of his list got selected.

**That dancing guy just ignored him & started writing something on his phone,
When that guy was done writing, He showed him his phone.**

There was written: "I'm Deaf, Kindly write down in this phone what you want to say."

**Our Guy didn't say a word, He got what he needed to at that moment, A message:
"Not Everything will happen according to your perception
But that is never the end."**

He simply smiled, Plugged in his earphones, Started his Playlist & Started to dance like there's no tomorrow...

The Creative Zone

मेरे छोटे से कमरे ने आज देखा जब
अकेले पढ़ते पढ़ते थक गई हूं मैं
बातें करने लगा वो ही मुझसे...

दीवारों ने बोला: आजादी है तुम्हारा हक,
आखिर कैद रखोगे खुदको कब तक?
मैंने बोला: बस खत्म होने को है इंतजार,
फिर शौक से घूमेंगे हम भी बाहर।

खिड़की ने बोला: आस पड़ोस वाले हैं झांकते,
आखिर कब तक बचाऊं मैं तूझे?
मैंने बोला: आज झांकते हैं बाहर से
कल बधाई देंगे घर के अंदर आ के।

किताबों ने बोला: ऐश करो आराम करो, करो मजे,
आखिर कब तक घुसे रहोगे मुझमे?
मैंने बोला: उसके लिए बहुत है समय,
अभी करनी है मुझे फतेह।

समय ने बोला: यू ना बर्बाद करो मुझे,
नहीं हो रहा है तो छोड़ दे ना CA।
मैंने बोला: बस लगी हूँ बढ़ाने में तुम्हारी कीमत,
देखना पास होने के बाद कैसे होगी तेरी इज्जत।

कलम ने बोला: आखिर और कितना चलना है बाकी,
थम जाओ ना कुछ घड़ी।
मैंने बोला: जल्द ही मिलेगा तूझे भी आराम,
जब सिर्फ sign करना रहेगा तेरा काम।

Calculator ने बोला: नहीं होता अब मुझसे,
बक्श दे ना मुझे।
मैंने बोला: रूठ ना ऐसे ओ परम मित्र मेरे,
पास होंगे दोनो यार वक्त दो मुझे।

शीशे ने बोला: आ देख मुझमे,
क्या सामना कर पाएगी खुद से?
मैंने बोला: वो तो रोज ही करती,
Convocation dress में दिखती है खुद की छवी।

तो बस ठान ली है मन मे,
जिद्द पकड़ ली है मैंने,
तब तक नहीं मानेंगे हार,
जब तक पहना नहीं लेते
खुद को जीत का हार,
और लोगों से कहलवा नही लेते
CA खुशी अग्रवाल।
